## How to Increase Sales in a Slow Economy

### SUMMER SAVINGS FOR SOFTWARE

NFive announced today a Summer 2009 Professional Promotion for CardFive dealers, offering significant savings on any purchase or upgrade to [CardFive Vision Professional](#). The promotion begins July 15th and runs through September 30th, 2009.

**Save up to \$400 off the original list price. And the savings don't stop there!** Dealers, contact DigiOn24 for an even greater discount off of Nfive already-reduced summer promotion prices. CardFive Vision Professional is the recently improved and enhanced version of the CardFive Professional card-making software. The cost savings also extend to RLL upgrades. For departments currently using Classic, Lite XL or Premier, upgrades are available for a fraction of the cost during the Summer 2009 Professional Promotion. With an easy-to-use dashboard, spooled printing, and the newly added imager (a tool for image capturing, editing, and improving), CardFive Vision Professional is unmatched for its quality and user-friendly tools. And now, with the addition of NPS (the network print server), multiple workstations are able to print and encode with one software system.

### July 2009—Sept 2009

Upgrade to CardFive Vision Professional—promo through 9/30/09

### Trade-in and Trade-up!

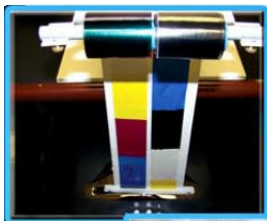

Users can send in their CardFive LBR-150 reader with smart card license and get up to \$630 applied toward the new and improved CardFive Vision. CardFive Vision comes with a 1-year warranty and a full year of FREE technical support offered by DigiOn24.

### WIN SALES WITH FIELD-UPGRADEABLE ENCODERS

They've spent the money. They've got the card or label printer. Now they want to add RF smart contactless ID card security.

So, now what? We've got an easy and cost-effective solution for your customers. There's no need to go out and buy a whole new system; our Mifare, iCLASS field-upgradeable [RF Encoders](#) allow for In-Line encoding with the system they already have. Bundle D24 encoders with CardFive Professional software and your customers are up and running in no time! Easy installation in Evolis, Eltron/Zebra, Nisca, Datacard card printers...

### RL6 RIBBON SHREDDING SYSTEM—ADD VALUE AND MAKE ADDITIONAL SALES!

While you are visiting a client making a sale, seize the opportunity to get incremental sales with the RL6 Ribbon Shredding System. Introduce your client to the value of witnessing the destruction of the used ID card printer ribbons and the ease of installation. An easy and natural way to increase your revenue!

The DigiOn24 [RL6 Ribbon Shredding System](#) uses the company's own shredder to securely destroy used printed ID card printer ribbons safely in their own facility. This keeps the costs low and makes it easy to use.

### Interested in our line of Secure Cabinets?

#### Combine Access Control with Inventory Management

Our high quality cabinets use smart card technology to secure and track the contents within. With three levels of security and access tracking with date and time stamping, you will never worry about your valuable assets again.

Ideal for Government, Medical Facilities, Forensic Labs, Universities, and Armed Forces
